

How to use your Vizion Mechanism

Vizion Mechanism

With one lever located either side of the chair, Vizion is as simple to use as it is beautiful. The ability to change the height and angle of the chair is achieved with lockable tilt adjustment and seat height adjustment levers.

101) Seat Height Adjustment

Raise the lever and adjust the height of the seat to maximise comfort. Release lever when your seat is in your preferred position.

102) Seat Angle Adjustment

Pull lever outwards to release the lock and change the angle of the back and seat. Push lever back in to lock into desired position.
